APFS has become de facto on every Apple platform with flash storage, including not just Macs but iPhones, iPads, Apple TVs, and even the Apple Watch.. That in turn would probably imply inclusion with this fall's macOS 10.14, given that the company rarely uses WWDC to talk about interim software updates.. Cosimo's possession of these such texts cannot be discounted as the consequence of a merely general (and passive) interest in scientific knowledge, for intriguing evidence in the form of Cosimo's own scientific recipes points to a hands-on engagement with alchemy..
